

# CleanTec CT570, CTD570

The 570 series has become the most popular contractors' extraction cleaner by choice... and this is not by chance, but by design.

The Structofoam 570 is available in both one and two motored models built to the full TwinFlo specification and incorporating our Powerflo' pump and quick connect liquid system. The containers are also full Structofoam incorporating our unique "tank within a tank" system to maintain a compact and usable size.

- **All Purpose 4 in 1**  
Wet, Spray extraction carpet cleaning and upholstery cleaning / car valeting.
- **Structofoam Construction**  
Heavy duty Structofoam used in both head and body construction.
- **Nucable System**  
Power cables can be changed without the need for an electrical engineer.
- **Professional and Powerful**  
Longlife professional TwinFlo bypass motors.
- **Tank within a Tank**  
Simple, clean and efficient. This unique design allows an easy to fill and quick to change system.
- **Full Accessory Kit**  
Supplied with carpet, upholstery cleaning and wet accessories.

# CleanTec CT900, CTD900

The 900 is our largest machine to incorporate the compact "tank within a tank" design.

The 900's come in two models, one-motored or two-motored, both incorporating our TwinFlo bypass motors and integrated Powerflo' pump system. The pump system injects the cleaning solution deep into the carpets in a continuous deep cleaning cycle and these bigger machines will cover an area more than three times that of our smaller machines, without the need for emptying, this is especially important in office blocks and high rise apartment blocks.

- **All Purpose 4 in 1**  
Wet, Spray extraction carpet cleaning and upholstery cleaning / car valeting.
- **Tank Within a Tank**  
Simple, clean and efficient. This unique design allows an easy to fill and quick to change system.
- **Structofoam Construction**  
Heavy duty Structofoam used in both head and body construction.
- **Easy to Empty**  
The unique tipper system incorporated within the chassis design allows for the machine to be emptied in floor drains or WC's where available.
- **On the Move**  
Large rear wheels provide stability during transportation.
- **Nucable System**  
Power cables can be changed without the need for an electrical engineer.
- **Full Accessory Kit**  
Supplied with carpet, upholstery cleaning and wet accessories.
